

Science for all.

NASA's Transform to Open Science

TOPS Monthly News & Updates

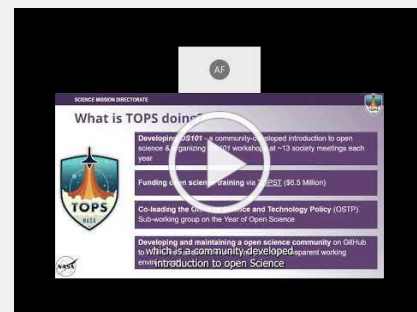

June 2023

Exciting News! The bi-annual Community Panel will incorporate the monthly Community Forum June 14 - 16 at NASA HQ to review the overall TOPS strategy. Don't miss this opportunity to engage with industry experts, contribute to the open science discussion, and help shape NASA's plans for a Year of Open Science. Visit our blog to learn more and register!

In celebration of Juneteenth, we take this opportunity to acknowledge remarkable endeavors that exemplify unwavering dedication to cultivating a society rooted in diversity, equality, mutual respect, and inclusion. [Black in Astro](#) serves as an inspiring model for uplifting and empowering marginalized communities, while fostering a society that is more inclusive and equitable.

We extend an invitation to explore NASA's Transform to Open Science ([TOPS](#)) mission, an ambitious undertaking designed to foster a scientific culture that embraces the challenges of the 21st century. Through this mission, NASA envisions a future where inclusivity and openness are integral components of scientific pursuits.

Black Space Week starts June 18. Check out [@BlackInAstro](#) for a [calendar of events](#).

Are you going to [AAS](#) 242? Be sure to stop by our booth and attend one of our sessions! The conference is open to all registrants for a fee. OS101 Workshop (6/3) is free to attend.

Happy 10th Anniversary Zenodo - May 8! Check out the TOPS Community on [Zenodo](#)!

Register for the [The White House Listening Sessions with Early Career Researcher Communities](#).

Upcoming dates June 5, June 6, and June 12.

Listen to [IEEE's-GRSS](#) podcast, [Down to Earth: A podcast for Geoscientists by Geoscientist](#), especially [Navigating Data Sovereignty in Open Science](#).

NASA Funding Opportunity for Early Career Researchers, [Information Sessions](#) June 14 and June 22, 2023.

Mikulski Archive for Space Telescopes (MAST) News [Day of Accessibility Recording](#) are now available.

Harmonized Landsat Sentinel-2 ([HLS](#)) code now openly available on the NASA Interagency Implementation and Advanced Concepts Team (IMPACT) [GitHub repository](#).

[Registration](#) is open for the first of three events on June 15 for the Directory of Open Access Journals ([DOAJ](#)) 20th Anniversary.

June 4 - 8, Albuquerque, NM

- [Meeting-within-a-Meeting](#), June 4-5, Room 220
- Exhibit Booth 402
- [Free public event June 7.](#)

Watch live! NASA/CERN Summit

In celebration of the 2023 [Year of Open Science](#), NASA and CERN are jointly organizing “Accelerating the Adoption of Open Science”, a week long open science summit at CERN in Geneva, Switzerland. You are invited to join online and be a part of the discussion!

July 10 - 14 [NASA/CERN Summit](#)
Free remote option with registration.

[Register](#)

June 26 - 28 [6th Planetary Data Workshop](#). Open to all registrants, fee required.

July 16 - 21 [IGARSS](#), [TOPS Open Science 101 Workshop, session](#), booth and more! Open to all registrants, fee required.

In recognition of LGBTQI+ Pride Month, NASA Headquarters will raise the Progress flag during the month of June. Let's celebrate the progress toward equality and reaffirm our steadfast belief in the dignity of all Americans.
